COMPANY PROFILE

CIXI WANJIE ELECTRONIC CO.,LTD was founded in 1992 and specializes in the production of solderless breadboard and pcb terminal block.

We have passed the ISO9001:2008 quality management system,with many years development, we have built an excellent management team and have our own R & D center,mould production,plastic injection,hard-ware stamping and automatic assembling workshop.We have adopted advanced production and test equipment,so that we could offer good quality and more competitive products.

For better service to the customers,we can also design,develop and produce according to customer's requirement for OEM/ODM products.

With the advanced administration system,good quality,competitive price and good service,our products are sold far to America,Europe,Asia,Africa etc and get good comment from the customers.

All the staff of company will strive together for a better tomorrow and show warm welcome to the customers of all over the world.
